

To whom it may concern,

I am writing this letter of recommendation on behalf of ADDEV Materials.

ADDEV Materials is a global healthcare leader with ISO 13485:2016 certification and FDA registration that specializes in printing, die cutting, converting, clean room manufacturing and distribution of high-performance flexible materials for disposable medical devices, engineered adhesive components, and labels. Founded in 2006, ADDEV Materials is a high growth company that delivers value-added products and services for medical device, pharmaceutical, biotech and life science markets.

From 17 global manufacturing locations ADDEV Materials provides expertise and sustainable material solutions (tapes, films, foams, fibers, and chemicals) for Medtech OEM's, contract manufacturers, and health care businesses involved with diagnostic, microfluidic, patient monitoring, wound care, ostomy, packaging, health and wellness, and wearable products.

The team behind this growing brand is dedicated to customers' needs and strives to make every interaction meaningful. They are technical problem solvers and creative craftsmen who consistently deliver custom engineered solutions and high-quality products.

I wholeheartedly recommend ADDEV Materials Healthcare.

Sincerely,

Rodney Tillotson
