

To whom it may concern,

I am writing this letter of recommendation on behalf of Olathe Public Schools in the Olathe, Kansas community. Presently it encompasses 36 elementary schools, 10 middle schools, and five high schools as well as multiple special education centers and early learning centers. It is the second largest school district in Kansas with 55 years of consecutive growth and a rich history in education for the community.

The Olathe Public Schools district serves more than 30,000 students, providing a safe and positive environment that helps prepare the students for a bright future. The schools offer many additional programs to students that aid in their social development as well as mental health services to help promote healthy lifestyles. The Olathe Public Schools believe that children's futures shape the future of the community and want to invest in them.

The Olathe Public Schools have the support and dedication of over four thousand certified staff and support staff, many with awards of recognition. With an average of 14 years of teaching experience, the staff at Olathe Public Schools are highly qualified and are dedicated to providing the best education for the children in the community.

I recommend the Olathe Public Schools for families in the Olathe, Kansas area that are looking to give their kids the best possible start in life. The education and support programs provided make the district a qualified and trusted place for children to receive the education that will kick start their future.

Sincerely,

Darren Morris
