

To whom it may concern,

It is with great pleasure that I write this letter of recommendation on behalf of Summit Drilling, a leader in the drilling industry. With decades of experience, versatile services, and committed team, Summit Drilling provides every client an exceptional experience.

Founded in 1986, Summit Drilling is a go-to source for geophysical investigation and downhole analytics, environmental and geotechnical drilling, and site remediation services for clients across the eastern the United States. Summit Drilling continually invests in the growth and maintenance of its equipment, ensuring it can meet every challenge in the field with success. It also utilizes online tools to streamline proposal process.

At Summit Drilling, its the team that makes the difference. Each member feels a deep responsibility to provide every client with an exceptional experience. Together, they foster a culture of continuous improvement, customer care, and teamwork that is unparalleled in the industry.

I wholeheartedly recommend Summit Drilling for any project requiring drilling, geotechnical, or remediation services. Its extensive experience and comprehensive services, combined with its team's commitment to customer satisfaction, make it a true partner you can rely on.

Sincerely,

Darryn Thiessen
