

To whom it may concern,

It is with great pleasure that I write this letter of recommendation on behalf of a keystone company to the communities of Northwest North Dakota, Westlie Motor Company. For over a century, Westlie Motor Company has been meeting transportation needs and providing exceptional customer service, while also being a major employer for communities in the area.

Based in Minot, North Dakota, Westlie Motor Company operates out of six service centers in the region. Its sells a wide range of new and pre-owned Ford vehicles, with service and finance options to meet the needs of their customers.

At Westlie Motor Company, it is the team standing behind it that makes all the difference. Each one is committed to providing the best experience for their customers. They've been awarded Ford's President's Award eight times in recognition of their superior customer satisfaction, and their community has voted them the #1 Car Dealership five years in a row.

Westlie Motor Company also prides itself on being a major employer in the area. Its employment plans offer great pay and benefits, leading to high retention across their entire company. Ultimately, this results in a highly skilled, knowledgeable, and dedicated team, which is reflected in the exceptional service they provide.

I would not hesitate to recommend Westlie Motor Company to anyone looking for a new or pre-owned vehicle, or to have their vehicle serviced in Northwest North Dakota. Its longstanding history of great products and customer service, paired with their reliable team, makes Westlie Motor Company a trusted provider for the area.

Sincerely,

Nick Vetrano
