

To whom it may concern:

I am writing this letter of recommendation on behalf of Child Development Centers, a private, nonprofit organization with 15 locations throughout Northwestern Pennsylvania. It has been operating for 55 years with the mission of “Educating Children to Succeed.”

The Child Development Centers recognizes that 90 percent of brain growth happens before kindergarten, which has a lasting impact on the child’s ability to learn and succeed in school and life. It offers individualized care for children beginning at six weeks with tuition-based programs, all the way to before and after school programs that continue that development. The Child Development Centers utilizes research-based materials to promote the child’s social, emotional, physical, cognitive and language development.

The staff at Child Development Centers all have a dedicated interest in helping your child play, learn and grow in a safe, happy and healthy learning environment. They help to implement the common goals of student achievement, safety, professionalism and excellence, because they genuinely want to help your child succeed.

I recommend Child Development Centers to anyone looking for high-quality childcare or early childhood education. Its caring and passionate team strive to provide a safe, healthy, and creative environment to help your child make a successful transition to kindergarten and beyond.

Sincerely,

Adam Baker
