I have had the pleasure to work with Adam Baker and Schooley Mitchell for over 1 ½ years! Adam is a great professional to work with on cost containment and future savings to Erie Animal Hospital. Our small business has benefitted from Schooley Mitchell negotiations in the areas of waste management and recycling, and merchant fees.

Adam's visits always include "how else can I help your business?" and he has made introductions with others in different business sectors where I have explored and gained knowledge. He is very respectful of my time and also gives business resources throughout the year that are interesting and valuable.

I am usually wary of people calling our business and claiming to save us money, but Adam delivers on this and is "no pressure" in his approach. We share the same hometown and this commonality led me to meet with him and I'm very glad we connected! I highly recommend Adam and Schooley Mitchell services to any business and have made numerous referrals to others when the opportunity arises!

Jackie Ballay, Finance Manager
Erie Animal Hospital
