To whom it may concern,

If you're looking to save your organization money, I strongly recommend contacting Schooley Mitchell of Marlborough. So far, we've engaged them on two projects where they were able to find significant savings opportunities.

For the first project we asked them to find a medical waste provider for our practice via an hourly engagement. They brought us several options and it was very interesting to see the major differences in providers and the pricing they offered (one was 50% higher!). Schooley Mitchell had also negotiated things like caps on annual price increases and removal of delivery and fuel charges.

Next, we asked them to help us find savings on our credit card payment system. This work was done on a contingency basis so there was no cost for the analysis. When they finished their research and negotiations, they presented a thorough report that gave us multiple options ranging from 6% savings to 82% savings. With so many different options available, they helped us select the option that made the most sense for our business.

Artemis Veterinary is a family owned and operated business located in Northborough, Massachusetts. We have over 20 years of experience in the veterinary industry, providing the best care for our companions. As a family operation, every extra dime makes a huge difference to us.

I cannot recommend Schooley Mitchell of Marlborough enough for any business or organization interested in reducing their costs and increasing their bottom line.

Sincerely,

A handwritten signature in black ink, appearing to read "Karen Patti", written over a faint horizontal line.

Dr. Karen Patti
Owner, Artemis Veterinary, LLC
