To whom it may concern,

I highly recommend any business owner or executive work with Schooley Mitchell of Marlborough, MA. We engaged them to conduct a free audit of our phones and internet. Our business had nothing to lose, but potentially a lot to gain by working with Schooley Mitchell.

Minuteman Press is a full-service design, print and marketing center serving the entire business community from small businesses to Fortune 500 companies. Our customers are wide-ranging and include local organizations, government groups, non-profits, professional sports teams, businesses, entrepreneurs, consumers, and more. At Minuteman Press, we can produce anything you can put a name, image, or logo on.

Schooley Mitchell analyzed our telecom expenses including our phone system and internet. I was thrilled when they came back and presented a value report that identified over 50% savings on the phone system. This extra room in our budget is greatly appreciated! Unfortunately, we only have one option in our location for internet service, but they were still able to negotiate 10% savings on my bill and a big upgrade on my internet speed at no additional cost.

Not only did they cut the cost of our phone service in half, but our new service offers greater clarity, and more usable features than our old system. Schooley Mitchell of Marlborough was with us through the entire process, including the switchover, which allowed us to conduct business with very little downtime.

Overall, my experience with Schooley Mitchell of Marlborough was very positive and I would strongly suggest anyone looking to reduce their business expenses reach out to them. They are professional and passionate about the work they do.

Sincerely,

Darlene Welch

Owner, Minuteman Press Marlborough
