

To whom it may concern,

I highly recommend Sanjay Lakule of Schooley Mitchell. We engaged Sanjay to audit our merchant services expenses. We are always happy to find new ways to save money without impacting our services.

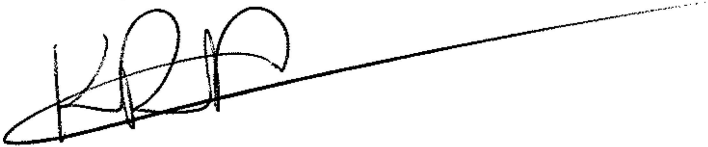

Pacific Cabling Solutions, located in Delta, BC, is a Canadian-owned specialty distributor providing a wide range of products and solutions for audio, video, voice, data, automation, and security cabling products and services. We are known for our expertise in this industry and are committed to offering superior products that make us unique.

Sanjay's team analyzed our merchant services invoices to determine whether or not savings could be found. The Schooley Mitchell process is seamless and easy for the client. All that was required was a quick conversation about our set up, access to our invoices and contracts, and then Schooley Mitchell did all the work from there.

When Sanjay came back to me and presented the report, it made me happy to find out that our expenses are in great shape. It's a relief to know we haven't been overspending and that our budget aligns with our priorities. The best part? Since Schooley Mitchell's only fees are a portion of savings found, their analysis came at no expense. I am now gathering some information & data about my courier expenses so to have those audited by Schooley Mitchell and see if savings can be found.

Overall, my experience with Schooley Mitchell and Sanjay Lakule was very good, and I highly recommend any business or organization utilize their services. I know Sanjay for a few years now and he is professional and passionate about the work he does!

Sincerely,

Ken Brown, Owner - Pacific Cabling Solutions Ltd.
