To whom it may concern,

I would like to take this opportunity to write about my experience working with Mike Larsen of Schooley Mitchell. We engaged Mike to audit our waste, small package shipping, and mobile device expenses. Mike and the team at Schooley Mitchell analyzed the invoices provided to determine whether or not savings could be found. The Schooley Mitchell process is seamless and easy for the client as they do all of the work for their clients. Mike came back to me and presented a Value Report showing that Schooley Mitchell was able to identify 33%, 10%, and 60% savings vs. their current pricing respectively. These savings can now be better spent on the efforts that matter to our business most rather than being needlessly paid to vendors.

Overall, my experience with Schooley Mitchell and Mike Larsen was great, and I highly recommend any business or organization utilize their services. Mike is professional and passionate about the work he and Schooley Mitchell do for their clients.

Respectfully,
