Newmarket, Ontario, Canada, L3Y 6C7

Mr. Greg Rusnell,

I want to take a moment to thank you for your outstanding work in auditing our wireless services expenses. As an organization, we had often wondered whether we were overspending, but we simply didn't have the time to analyze it ourselves.

Circle of Care, part of the integrated Sinai Health System, is a leading not-for-profit home and community care provider serving the Greater Toronto Area. Our compassionate staff and volunteers are dedicated to supporting independence at home and enhancing the quality of life for people with complex health needs, helping them live longer and happier lives in the comfort of their homes, where most of them want to be.

You and your team at Schooley Mitchell made the process of auditing our wireless services incredibly easy. After a brief conversation to understand our setup and provide access to our invoices and contracts, Schooley Mitchell took care of the rest.

I was delighted when you presented your findings, showing that Schooley Mitchell had identified almost 25% in savings on our wireless services. This will allow us to relocate funds within our budget and will have a significant positive impact on our operations.

Overall, I had an excellent experience working with you and your team. I highly recommend Schooley Mitchell's services to any business or organization looking to optimize their expenses. Your professionalism and passion for your work are truly appreciated.

Sincerely,

DocuSigned by:
