The Trusted Toolbox  
Home Services, Repairs & Renovations

To: Prospective Clients of David Burke and Schooley Mitchell:

As the President and Founder of The Trusted Toolbox, I'm recommending the services of David Burke and Schooley Mitchell of Atlanta. At The Trusted Toolbox, we have a proven history of helping homeowners in Metro Atlanta with home repairs, remodels, and general handyman tasks. Our experts have experience remodeling bathrooms and kitchens, as well as performing small home improvement projects. We are a busy, growing company and simply did not have the time or resources to adequately review our expenses as thoroughly as we'd like.

I engaged David's services to review our expenses for waste disposal and telecommunications. In our initial meeting, David shared that he would review our expenses and return to us with a list of recommendations that we could choose to accept or not accept. No fees would be charged until we agreed to move ahead and then the only fee would be a share of the savings, no more.

To my surprise and delight, David and his team found ways to help us reduce our waste disposal expenses by 71% and our telecommunications expenses by nearly 10% with our data/internet expense decreasing 40%. Neither of these solutions required a change to our existing vendors so we gladly implemented.

David's team has since audited our bills which they will do every three months and no errors have been found to date.

I am very pleased with the results of his expense audit and highly recommend David and Schooley Mitchell.

Sincerely
